MEMORANDUM FOR: Director of Personnel

VIA: Associate Deputy Director for Intelligence

FROM: [REDACTED] STAT  
Director of Global Issues

SUBJECT: [REDACTED] STAT  
Request for One-Year Extension of Military  
Detail

1. Paragraph 4 of this memorandum contains a recommendation for your approval.

2. It is requested that the current reimbursable detail to the Agency of [REDACTED] US Army, be extended for an additional year. The assignment will remain overt in nature. [REDACTED] EOD 31 October 1983 for a one-year tour of duty with the option to extend for an additional year. Informal contact with the Army indicates that this extension would be acceptable to them. STAT

3. [REDACTED] duties will continue as a senior analyst in the Insurgency Branch of OGI's Instability and Insurgency Center. During his first six months with this branch, [REDACTED] has made a rapid adjustment and a considerable contribution in three important areas: as an instructor in branch training courses, as a consultant on military strategic and tactical issues, and as project officer for a major research paper concerning the application of technology to insurgent warfare. STAT

4. We do not believe one year offers enough time for [REDACTED] to complete the complex research project to which he has been assigned and is personally committed. We therefore recommend approval be granted for a one-year extension of his detail to the Agency. STAT
